Experience

Freelancing

March 2013 - December 2013: Designed and developed internal iOS application for US Alliance (a big insurance company in Kansas). App was used by sales agents to simplify the process of collecting data from customers and automatically generating forms. App was developed with guidance from top level executives within the company.

September 2011 - Present: Core developer for Workout Hero, an iOS application used by over 140,000. App employs a custom data syncing solution designed from scratch and maintains its own social network that allows users to share their workouts and progress with the world. ([**AppStore**](#))

July 2011 - Present: Core developer for Timers Pro, a timers app featured in official 2012 and 2013 Reebok CrossFit Open Videos. ([**AppStore**](#))

August 2011: Developer for iOS app Guess Dat Song, which has received over 2 million downloads to date. Responsible for the core quiz functionality which includes streaming songs from iTunes and implementing a versus mode. ([**AppStore**](#))

Personal Projects

March 2014 - Present: Started a new class at a local junior high to teach students iOS development. Responsible for not only teaching students but the teacher as well. Class runs every weekday except Wednesday and is a part of students' regular schedules.

January 2011 - August 2011: Developed Globaclock, a new way to visualize timezones. Featured in AppAdvice and iPhoneLife. ([**AppStore**](#), [**AppAdvice**](#), [**iPhoneLife**](#))

Hackathons

January 2014: Attended hackTECH and developed PebbleQuiz, a live polling app for the Pebble Smart Watch. ([**Website**](#))

Education

2011 - Present: Currently a junior at Sunny Hills High School. Recipient of Rotary Award (top 33 in my class) and on track to become valedictorian. Have maintained a 4.0 unweighted GPA while taking the most rigorous courses available (AP/IB/honors).
